megadimension neptunia vii trial weapon pack

I did not see anybody playing the game. Dont waste your time.. Was crafting badges when I got a coupon for this game. Don't even play RPG style games. Said, "Why not, it's only like \$0.99." Played for two and a half minutes and came to a room full of chests. "Oh, this is an achievement game.". Nem megy VR-ben!!!!!!
This is not get VR !!!!!. Simple game, where cooperative is one of the most important thing.

+ Oldschool graphics from Sensible world of soccer :3
+ Simple and easy game

- lags :c

My opinion is 7/10 :). It's a tough as nails shmup done in the aesthetics of R-Type (ZX Spectrum version). It has tons of little short levels that make you swear (in a good way). You will die a lot, but each and every level is achievable. One for the retro fans, for sure, but shmup fans should give this a chance beyond a cursory glance. It has some really great levels.. 5/5 bretty gud. Played this game some. It was fun.

i smell pennies. Guys Keep Going !!!!. I love this game but im refunding it til i can play with a controller soz m8s. Good game, a little expensive but still a good game.. LOL hours of hilarious 1 click fun, its cute, cartoonish and slightly crazy well worth it to add to your game collection.. I really liked playing this game, though I would recommend not to buy it at full prize. It is a little expensive for the limited gameplay you can get out of this game.

I love how you get to know the people in this story and can really change their mind, while making up your own mind. It forces you to think about your own political value.

The game has some replay value as the game consists of multiple endings.. One of my favorite games. The action is straightforward 3-marble, but the graphics, sounds, and pace are just right. There are no frilly side goals and no cut scenes. Even the levelling up is done for you so you can get back to shooting those Tron-ish marbles without interruption. It's the only game of this sort that I've replayed many times.
